

Raymond M. Roop

Senior Member of the Technical Staff, Sensor and Actuator Solutions Division, Freescale Semiconductor

Raymond M. Roop received his B.S. degree in physics from The Ohio State University, and his M.S. and Ph.D. degrees in physics from The University of Illinois at Urbana-Champaign. He then joined Motorola's Semiconductor Research and Development Lab. Early work included power transistors, linear IC development and BIMOS. He has 24 years experience in MEMS and led the R&D team that developed Motorola's first accelerometer. He has 11 issued patents and over 15 publications and is presently a Senior Member of the Technical Staff in Freescale Semiconductor's Sensor and Actuator Solutions Division in Tempe, Arizona.
